Christmas Feud Review Game

An editable Christmas survey game show in PowerPoint for two teams, any subject and any grade.

PREVIEW

What's included

- **Version 1, with scoreboard** (.pptm): Team 1 and Team 2 scores on every round, plus a final score slide
- **Version 2, no scoreboard** (.pptx): the same game, no macros
- 25 round slides, each with up to 8 answers worth 10 to 80 points
- Sound effects, music and a setup guide

How it plays

1. Split the class into two teams. Each team sends a player to the face off.
2. Read the question. The first hand up answers.
3. A top answer gives that team control of the round. They keep guessing, with 10 seconds to talk before each guess.
4. 3 wrong guesses and the other team gets one chance to steal the points.
5. The team with the highest score at the end wins!

Works in Microsoft PowerPoint on PC, or on Mac with Microsoft 365. It does not work in Google Slides or the PowerPoint mobile apps.
What this preview shows: one full round, the start and end slides, all 25 round slides, both versions, and the setup guide.

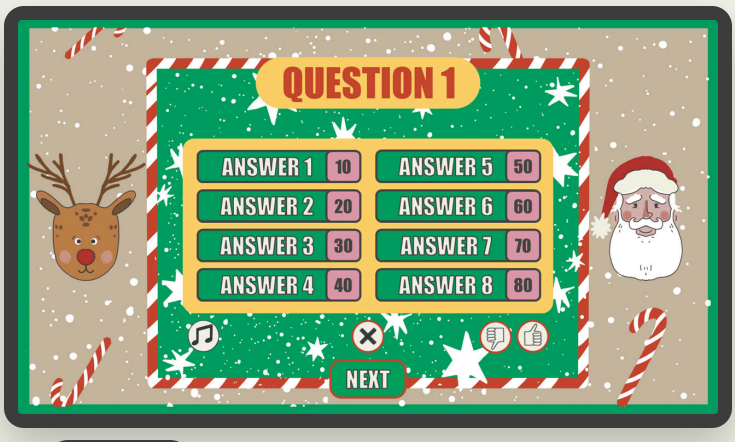
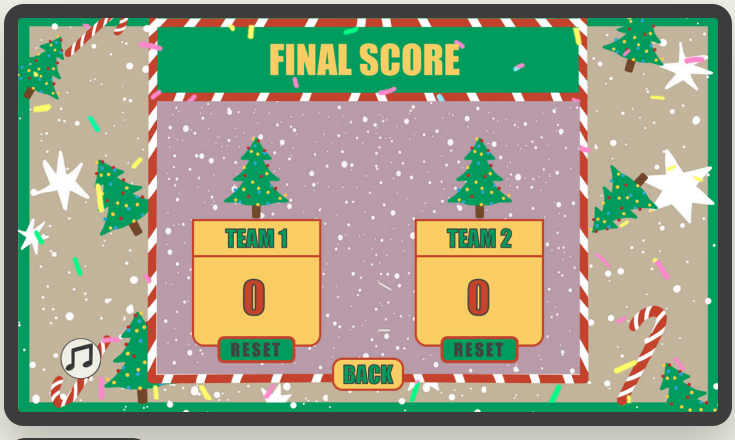
HOW A TURN PLAYS



STEP 1 Face off: read the question, first hand up answers.

STEP 2 Reveal the answers. 3 wrong guesses and the other team can steal.



STEP 3 Add the points with each team's arrow. Highest score wins.

Each round holds up to 8 answers. Fewer answers? Delete the extra tiles.

1. Download the Files

Click "Download" DOWNLOAD

You will find 2 PowerPoint options of files with the same game.
1. One file is the game without scoreboard
2. One file is the game with scoreboard. (Enable the Macros Step 3)

2. Set Up the Game Before Playing

Open the game in Microsoft PowerPoint.
Ensure that you have at least Microsoft PowerPoint 13. On MAC you will need PowerPoint 365.
The game is not compatible with Google Slides and PowerPoint apps or older versions of PowerPoint.

3. Before You Can Customize the Game

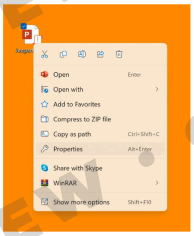
Open the PowerPoint and enable editing and Macros (if you use the scoreboard).

Enable Macros:

a. File
b. Options
c. Trust Center
d. Trust Center Settings
e. Click Box "Enable all macros"
f. OK
g. Close the PowerPoint and open again.
In case the scoreboard is still not working, unblock the file.

Unblock the File:

a. Close the PowerPoint File and find the file on your computer.
b. Right click and go to Properties



c. Click the box "Unblock" and Apply

4. Customize the Game

Click on slide 3 and enter your first question and answer (scroll up or down to find the question and the answers - both are on the same slide). Then go to the next slide and repeat.

If you have fewer than 8 answers, remove any extra answers and their corresponding shapes.

Begin the presentation. Play the game just like the TV show "Family Feud". (Rules explain in number 5.)

5. How to Play the Game

Divide the class into two groups of students, with each group competing against the other.

The teacher reads out the question on the slide, and a representative from each group will give their answer. If the answer is on the board, their group continues guessing the remaining answers; if not, the other group gets a turn.

Note: Teachers should keep a handout with all the correct answers listed. This way, when a student gives an answer, the teacher can quickly check the handout to see if that answer is on the board. If it is, the teacher can then identify which number it is under and reveal that specific answer on the slide to the class.

Each correct answer has a point value, determined by how many people gave that answer in a survey. The group earns these points for each correct answer they guess.

If the first group to answer correctly chooses to continue guessing (play) rather than passing, they'll try to guess all the answers on the board. However, if they give three incorrect answers, which count as three strikes, the other group can steal the points by guessing just one remaining correct answer.

After all the questions have been asked, the group with the most points is declared the winner.

Optionally, the winning group can participate in a bonus round, where they try to guess top answers to a set of questions within a time limit for extra points. The main objective is to guess the most popular answers, and most importantly, to have fun!

Enjoy and have fun!

Download, open in PowerPoint, turn on macros for the scoreboard, type your questions, play.
