HOW IT PLAYS

1. Split the class into teams. A team picks a category and a dollar value.
2. Read the question. Click the answer button to check. Correct wins the value.
3. One cell hides the Daily Double: that team can double the value.
4. After the board, every team wagers on the Final Question. Highest total wins.

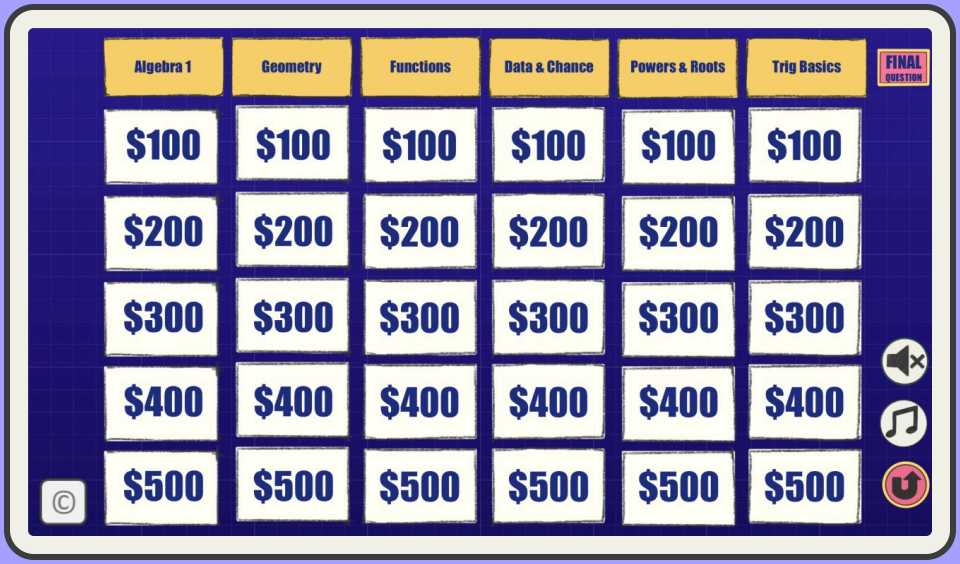

This preview shows: one whole turn (board, question, answer), the Daily Double and Final Question slides, the six categories, and the team score sheet.
