

Oktoberfest Mystery Box

Editable review game template for any subject.

PREVIEW

What's included

- The editable **Mystery Box game** in Google Slides (also opens in PowerPoint): a start menu, the rules, an 18-box board, **18 question slides** ready for your questions, Keep or Give, and 18 box reveals
- Blank question and answer boxes: type in your own subject, any grade, any language
- A printable **team score sheet** and a **teacher page** with the rules, what every box hides, and a question planner
- Color and ink-saver B&W, US Letter and A4

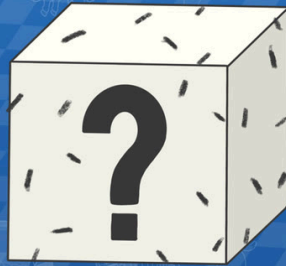

How it plays

1. The first team chooses a box from the board. Click the box, and that team tries to answer the question.
2. If they are correct, they decide: keep the box, or give it to another team?
3. If they are not correct, the next team can have a go. If that team is correct, they go to step 2.
4. Then open the box. It could hold positive or negative points, so choose carefully!

What this preview shows: the start menu and the board, one question slide with the Keep or Give slide that follows it, a plus and a minus box reveal, the color score sheet, the teacher page, and the ink-saver score sheet. The full game has all 18 question slides and 18 reveals.
