- Laminate the sheets and reuse them all year.

Print. Guess. Review!

TEACHER GUIDE

How it works

Pick a secret five-letter word. Students guess five-letter words and mark every letter with the marking key below. They have six guesses to find the word. Use the word lists in this pack, or turn any lesson into a review game by using your own vocabulary or spelling words.

Right letter, right spot Draw a square around the letter	**In the word, wrong spot** Draw a circle around the letter	**Not in the word** Draw a line through the letter

Pencil is all you need. With crayons, students can also color the letter: green for right spot, yellow for wrong spot.

1 · Whole Class

- Pick a secret word from a word list, or use one of your own vocabulary words.
- Students call out guesses. Write each guess on the board and mark every letter with the marking key.
- Students copy the guesses and marks onto their own sheets and cross letters off the alphabet tracker.
- The class has six guesses to find the word. Solved it? Start a new round with a new word!

2 · Partner Play

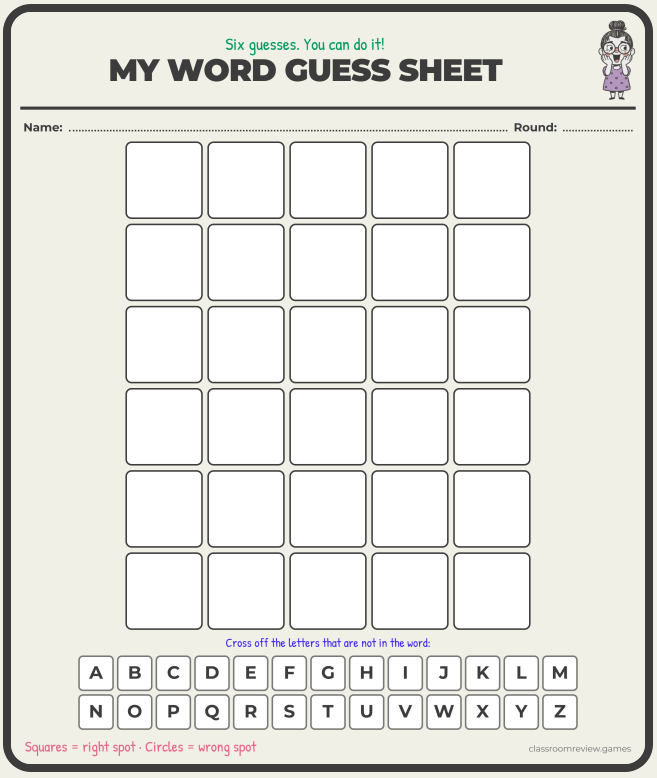

- Students play in pairs. One partner is the host, the other is the guesser.
- The host secretly picks a word from the word list and marks the guesser's letters after every guess.
- The guesser has six tries to find the word. Then partners swap roles.
- Use the speed round sheet to play four quick games in a row.

3 · The Closest Letters

- Play a whole-class round, but every student guesses on their own sheet.
- Score each row: 2 points for a squared letter, 1 point for a circled letter, and 5 bonus points for solving the word.
- Track points on the class score sheet. The highest total wins, even without solving the word.
- Great when time is short: everyone earns points, so every guess counts.
