TEACHER PAGE

HOW TO PLAY

1. Split the class into teams. The first team picks a category and a dollar value on the board.
2. Read the question. The team answers, then click the answer button to check.
3. Correct? The team wins the dollar value. Wrong? Another team may steal.
4. The Daily Double hides behind one cell: that team wagers first, then doubles it if they get it right.
5. After the board is cleared, every team wagers on the Final Question. Highest total wins.

TYPE IN YOUR OWN QUESTIONS

1. Open the deck in Google Slides (or PowerPoint) in edit mode, not Present.
2. Board slide: click each CATEGORY plate and type your category name (about 14 letters fits).
3. Question slides: click the text box and type your question. The answer slide is the next slide.
4. Final Question slide: type the final question; its answer is on the slide after it.
5. Leave the buttons, the dollar values and the links alone. Press Present and play.

Daily Double: it hides behind Category 3 for $300. **Final Question:** the FINAL QUESTION button on the board opens it. **Sound buttons** (thumbs up, thumbs down, music) work in the PowerPoint version only; Google Slides does not play sounds.
