WHAT IS INSIDE

- **Memory Match** (Google Slides, also opens in PowerPoint): 3 boards with 6 pairs each. The cards are called by color and shape, a click turns one over, the class names the picture and hunts for its partner. Printable cut-apart cards for every board, with backs.
- **Counting Game** (Google Slides, also opens in PowerPoint): 10 rounds, numbers 1 to 10 in mixed order. Count the pictures out loud, then one click shows the number with a counting row. Printable count-and-clip cards and a count-and-color page.
- **Picture Bingo** (printable): 20 different 4 x 4 boards with a picture in every square, 20 calling cards and a caller's checklist, plus a calling deck for the screen.
- **No reading needed.** 20 winter and Christmas pictures: snow, warm clothes, treats and friendly animals, no people and no religious symbols. Printables in color and ink-saver B&W, US Letter and A4.

ONE WEEK, THREE CIRCLE TIMES

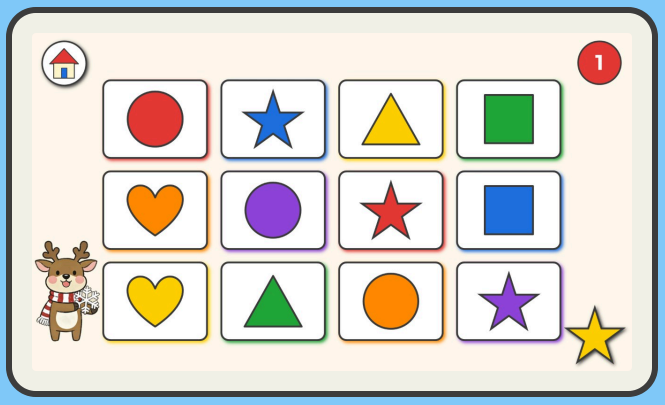

1. **Monday or Tuesday:** Memory Match on the screen, one board a day, about 10 to 15 minutes each.
2. **Midweek:** the Counting Game, all 10 rounds in about 15 minutes, then the clip cards at a table.
3. **The last day before winter break:** Picture Bingo. A board and a handful of markers for every child, and I call from the screen.

This preview shows: one whole Memory Match turn (board, picture, back to the board), one Counting Game turn (count, then the number), Picture Bingo from board to calling deck, calling cards and checklist, and the printables.

ACTIVITY 1 OF 3

MEMORY MATCH: ONE WHOLE TURN

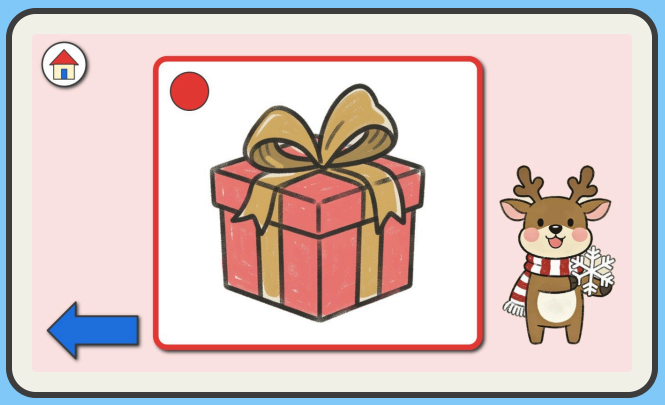

Call a card. Click it. Name the picture. Back to the board.

STEP 1

A child calls a card

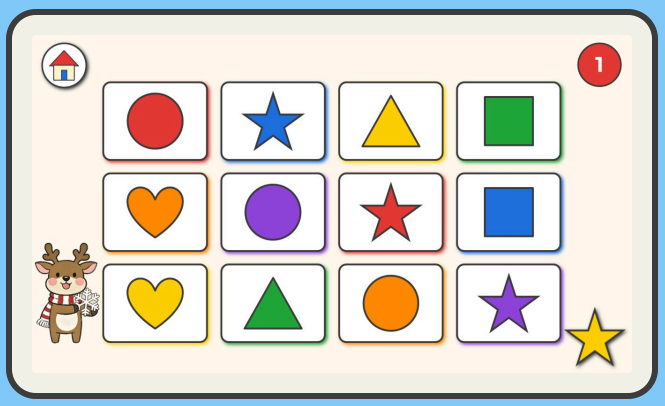

"The red circle!" Twelve cards lie face down, each with its own color and shape, so even a three-year-old can pick one.

STEP 2

Click it: Gift!

The picture fills the screen and everyone names it. The blue arrow goes back to the board; the speaker notes tell me where its partner hides.

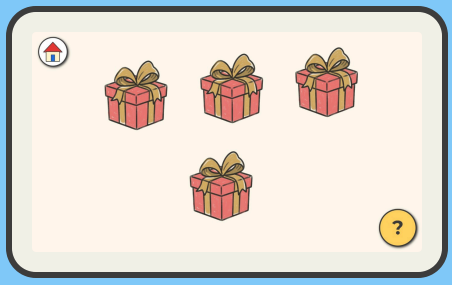

STEP 3

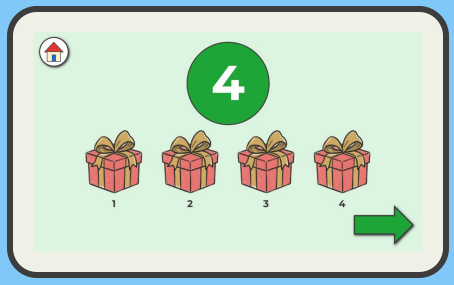

Back to the board

Another child calls a card. Same picture? A match, cheer together! The green triangle hides the other gift. Six pairs, then the yellow star.

ACTIVITY 2 OF 3

Counting Game: one whole turn

Count the gifts together, pointing at each one: 4! Then click the yellow question button. The number **4** appears with the gifts in a row and a counting number under each, so the class counts again to check and shows four fingers. The green arrow goes on to the next round.

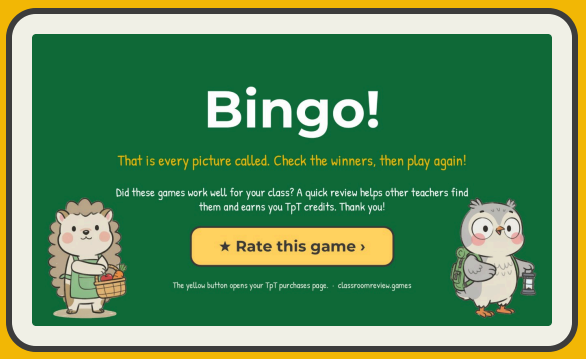

ACTIVITY 3 OF 3

PICTURE BINGO: HEAR IT, COVER IT

Print the boards, hand out the markers, call from the screen or from a bowl.

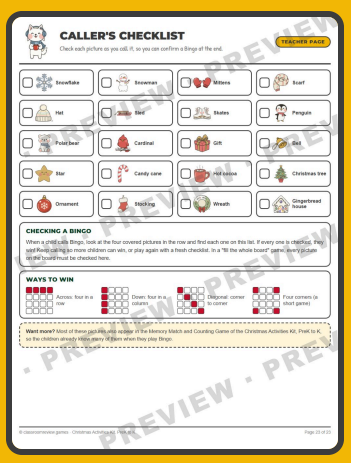

The calling deck (Google Slides and PowerPoint) shows one picture per click with its word for me to say. All 20 called? The last slide says Bingo!

No screen? The 20 calling cards cut apart and go in a bowl. The caller's checklist keeps track of every picture called, so a Bingo can be checked in seconds. All 20 boards are different, with a picture in every square and no reading needed.
